

Jamie Griffin

Executive Director, Women In Bio

Current Company:Management Consultant to the Life Sciences Industry

Current Title:Executive Director

Professional Background

Jamie serves as both Executive Director of Women In Bio and Board Secretary. In addition, Jamie is a Federal Government Contractor, producing technology transfer marketing materials and providing business development support for potential partners. Previously, Jamie was Business Development and Strategic Alliances Manager at Biotechnology Industry Organization (BIO), where she marketed member benefits and collaborated with state affiliates to increase the reach of BIO's affinity program. Prior to BIO, Jamie was a Technology Transfer Marketing Associate for a government contractor, facilitating the IP technology transfer to the private sector. For this work, she received a national award for Excellence in Technology Transfer from the Federal Laboratory Consortium for Technology Transfer. Jamie began her career at the Walter Reed Army Institute of Research, working on vaccine development, including Dengue virus, Adenovirus and Lyme Disease.

Jamie holds a B.S. in Microbiology from the University of Wisconsin-La Crosse and dual M.S. and MBA degrees in Biotechnology from the Johns Hopkins University.

Jamie has served as Secretary of the Board of Women In Bio since 2011. As Executive Director she oversees all the daily operations of the organization, including chapter development, membership growth, marketing, communications and operational strategy.
