

Mona Chadha

Board Member

Current Company:Chadha Consulting
Current Title: President

Professional Background

Mona Chadha is an Executive leader with 24 years of experience in life sciences and biotech with a keen interest in personalized medicine. She has led roles in Corporate Leadership, Strategic Marketing, Business Development, Commercial Operations and Product Development. Currently, Mona is running her own consulting business helping companies with business strategy and fundraising. Her most recent position was with WaferGen Biosystems, with positions as Office of President, Chief Operating Officer and EVP Marketing & Business Development. She has also worked as a marketing leader at Applied Biosystems (Life Technologies), Nektar Therapeutics, and Pharmacia (GE).

Mona holds three Masters degrees- two from Columbia University in Microbiology and Anatomy and Cell Biology and another in general microbiology from G. B Pant University, India. In addition Mona holds a strategic marketing certificate from Stanford University.

Mona joined the Board of Directors of Women In Bio in 2013 where she provides guidance on business development and marketing for the organization, in addition to long-term strategic planning.
